

C544 L

HIGH-PERFORMANCE SPORTS HEAD-WORN
CONDENSER MICROPHONE

1-2-3-4, RUN, TURN HIP AND JUMP

for aerobics and handsfree speech applications

The C544 L high-performance head-worn miniature condenser microphone with an easily fitting headband is perfect for gymnastics instruction and other handsfree speech applications. A transducer shock mount reduces body noise to a minimum and the short microphone arm places the microphone in the right position to the mouth to minimize pop and breathing noise. A special moisture shield on the boom prevents the microphone from being clogged by sweat or makeup.

The C544 L comes with a three-pin mini XLR connector which fits all AKG WMS Series body-pack transmitters. The package also includes a special windscreen.

- **Fully rugged sports headband**
for secure fit in all situations and movements
- **Cardioid polar pattern**
for problem-free use with high ambient noise rejection
- **Flexible shock mount**
for efficient suppression of mechanical and body noise
- **Moisture shield**
ensuring a dry microphone capsule
- **Includes four drop rings**
for sweat and water protection

Included accessories: W444 Windscreen, Dropring

Item Number: C544 L 2793Z00060

C555 L

HIGH-PERFORMANCE HEAD-WORN
CONDENSER MICROPHONE

FLEXIBLE FLYWEIGHT

for handsfree vocal and speech applications

The C555 L high-performance head-worn condenser microphone is ideal for handsfree applications, including presentations or onstage performances. The C555 L rests securely and comfortably on the head, and can be attached to the left or right side of the behind-the-neck headband as desired. A transducer shock mount reduces handling noise to a minimum. The moisture shield ensures a high degree of humidity protection for the microphone.

The C555 L provides a three-pin mini XLR connector and can be used with all AKG WMS Series body-pack transmitters, B29 L battery power supply, or the MPA VL adapter for external phantom powering.

- **Lightweight and adjustable-headband construction**
for maximum comfort and freedom of movement
- **Left and right flexible boom mounting**
for precise positioning to the sound source
- **Cardioid polar pattern**
for problem-free use with high ambient noise rejection
- **Flexible shock mount**
for efficient suppression of mechanical and body noise
- **Moisture shield**
ensuring a dry microphone capsule

Included accessories: W444 Windscreen
