

# NEC MultiSync® X464UNS

Order Code: 60003722

NEC LCD 46" Specialty Large Format Display

The new ultra slim X464UNS sets the standard for videowalls. It features a 3.5 mm bezel to create impressive high resolution videowalls with barely visible bezels. With perfect picture quality and high product reliability, these displays are designed for the rigors of 24/7 operation. The new Frame Comp functionality supports a seamless appearance and shows the content without any interruption, creating one stunning image by synchronising the content across the wall. The unique builtin NFC sensor in combination with NEC's new Android app reduces installation and maintenance times, especially useful on larger installations.

NEC's vast experience in the video wall market is evident in the design of the X464UNS with features that reduce cost, ease installations and improve the visual impact of content in retail signage, control rooms, broadcast studios, transport installations and for the rental market.

## BENEFITS

**Reduced Installation and Operating Costs** - featuring LED backlight technology the display is highly energy efficient with a low power consumption, longer backlight lifetime and a lighter design for easy and flexible transportation, mounting and integration.

**Native UHD Daisy Chaining through DisplayPort 1.2 Multistreaming** - enables the user to create UHD videowalls with either a single UHD image or 4 different Full HD sources.

**Auto Tile Matrix** - for a complete auto set up for videowalls. Save time and cost by configuring one display in order to complete the set up for the entire wall.

**Frame Comp** - supports a seamless appearance and shows the content without any interruption, creating one stunning image by synchronising the content across the wall.

**Unique NEC heat management** - enables the user to monitor and control the heat inside the display with user controllable fans. Heat management is crucial for larger walls and mission critical installations to secure reliability and longevity.

**Free Download of Multi-Display Management Software** - with NaViSet Administrator 2 you can manage all your connected display devices from a centralized location.
